What Amelia's clients have to say

Auckland Oct 2026

Amelia replied quickly and explained this well, making it easy for us to understand.

Amelia started in the insurance industry and with Rothbury in 2023. She prides herself on being a good listener, hardworking and having great organisational skills. Amelia is committed to growing her technical knowledge of the industry and building meaningful and long-lasting relationships with both clients and colleagues.

In her free time, Amelia can usually be found heading out on long drives in search of a new beach spot. When she's not out exploring, she enjoys spending quieter moments at home, often cozied up crocheting and working on new creative projects.
