What Jeremy's clients have to say

Canterbury Jun 2026

Jeremy provided me with some advice that I chose to ignore at first. He didn't pressure me over the decision. I later learned that I had made a mistake after taking some legal counsel and went back to Jeremy to ask him to go back to the insurer to rectify my error. It was past the date by which I needed to renew, but Jeremy fought for me with the insurer, and we got the right insurance cover in place. I should have listened to Jeremy to start with, but he never made me feel silly about any of my choices. I can't speak highly enough about his professionalism and doing the right thing for me as his client.

Jeremy provided fantastic service and would say he is the best broker we have worked with to date. His knowledge & understanding of what our business needed was exceptional, and he was thorough, efficient and easy to understand.
